

Machrihanish Dunes Golf Club

## Environmental Policy

**Machrihanish Dunes Golf Club will champion the concepts of sustainability, embracing these principles without compromising on the fundamental needs of the game itself.**

**Protection of the environment will influence all future decisions, policies and practices ensuring high environmental standards across all golf facility practices.**

### Key Elements

- Protect and enhance the natural value of our exceptional course.
- Reduce resource consumption and waste. Maximise reuse and recycling.
- Protect and enhance the landscape and cultural heritage.
- Communicate, educate and promote- internally, with our visitors, the local community and environmental agencies.

### Key Activities

- Assess current performance in order to Monitor and review our progress.
- Comply with relevant legislation.
- A structured, comprehensive and quantifiable approach to waste management.
- Encourage all suppliers and contractors to demonstrate their environmental responsibility.
- Excel in bespoke staff training, working to a comprehensive and proactive environmental management plan.

We intend to enhance both the ecological value and pure recreational enjoyment to ensure that our example showcases golf to the world.
